

SELEMAN SHINWARIE

SOFTWARE ENGINEER

Toronto, Ontario M3C1C4, Canada | selemanshinwarie@yahoo.ca | 6478538260 | [LinkedIn](#)

PROFILE

Software Engineer with a Computer Science degree and hands-on experience designing, building, testing, and supporting production applications. Strong background in full-stack development, API design, and database-driven systems, with professional experience across JavaScript, Java, SQL, and cloud-based workflows. Currently working in a highly regulated financial environment, bringing a quality-driven engineering mindset, strong debugging skills, and close collaboration with developers, product owners, and stakeholders across the full software development life cycle.

SKILLS

- **Languages:** Java, JavaScript (ES6+), Python, SQL, C, C++
- **Frameworks & APIs:** React, Next.js, Node.js, Express, RESTful APIs, JWT Authentication, MVC Architecture
- **Databases:** PostgreSQL, MongoDB, Firestore, relational and No-SQL data modeling
- **Testing & Quality:** Selenium, Postman, API testing, test automation, regression testing, AWS, CI/CD pipelines
- **Tools & Practices:** Git, GitHub, CI/CD, Agile/Scrum, debugging, code reviews

PROFESSIONAL EXPERIENCE

Software Engineer – Quality & Automation, First National Financial LP

Dec 2024 to Present

- Built and maintained automated UI and API test frameworks using Selenium and Postman, reducing manual regression effort and improving release reliability.
- Validated REST API, business logic, and end-to-end workflows for financial applications in a regulated production environment.
- Wrote SQL queries to verify backend data integrity, investigate defects, and support root-cause analysis across environments.
- Integrated automated tests into CI/CD pipelines, enabling earlier defect detection and safer deployments.
- Collaborated closely with developers and product stakeholders in Agile sprints to refine requirements and prevent regressions.

Full Stack Developer, Order Group

Jan 2022 to May 2024

- Developed full-stack features using React, Next.js, Node.js, and Express, delivering user-facing functionality and backend services.
- Designed and consumed RESTful APIs, supporting authentication, data persistence, and application workflows.
- Worked with PostgreSQL and Firestore, implementing efficient queries and data models.
- Improved application performance through API optimization, frontend refactoring, and reduced redundant data transfers.
- Collaborated with designers and developers to deliver features from implementation through testing and deployment.

EDUCATION

Carleton University
Bachelor of Computer Science

2024

CERTIFICATES

AWS Cloud Support Associate - Professional Certificate

Google Cybersecurity - Professional Certificate

IBM Generative AI Engineering - Professional Certificate
